

**March 28 - April 2, 2017**

# Lee Ann Helms Clinic

Lee Ann has studied mounted shooters and has developed an effective process to approach mounted shooting. This process allows riders of all levels to approach each course with the knowledge required to compete. By introducing competitive coaching to the sport of mounted shooting Lee Ann has instilled confidence by instructing each competitor on how to set themselves up for success.

With over 15 years of teaching horsemanship Lee Ann was a fast learner and quickly started earning National Titles in 2010. Lee Ann has the insight of knowing what the horse will do before the rider knows it is happening. This keen ability she properly corrects horse and rider.

Lessons will run continuously, riders will enter and leave the lessons as their discretion paying for their time in the ring.
